

KloudNote

Portable electronic notebook and e-book

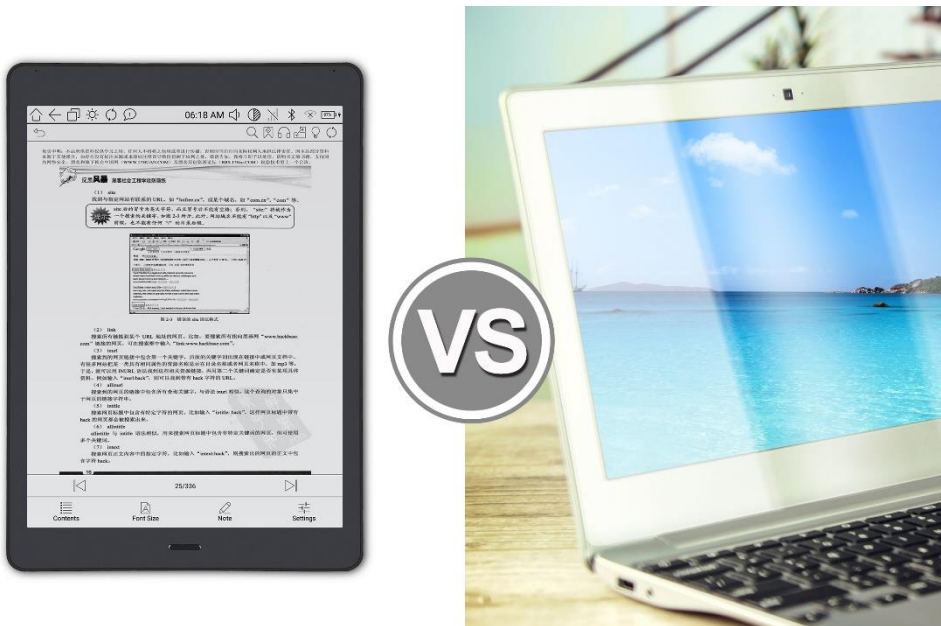

Overview

KloudNote, manufactured by Geniatech, is a professional e-notebook and e-book reader. KloudNote combines the simplicity and comfort of reading and writing in real paper with the ease of access of digital notes. KloudNote is how we learned to be productive in school and is how our minds enter a creative space that is free from distraction. KloudNote can visit the past notes and the e-book you have browsed at any time and any space. At all, KloudNote can satisfy business peoples, student, teachers, editors, etc all the needs and experiences of note taking and reading.

Key Features and Benefits

Glare-Free Screen

The Screen is entirely glare-free in direct sunlight, just like paper. Not only is it easy-on-the-eyes and a pleasure to look at, but it is also suited for long periods of usage, preventing eyestrain. Look forward to meetings or work sessions under bright lights, near windows, and outdoors, with text displayed in high definition 1440x1080 pixels.

A smooth handwriting experience

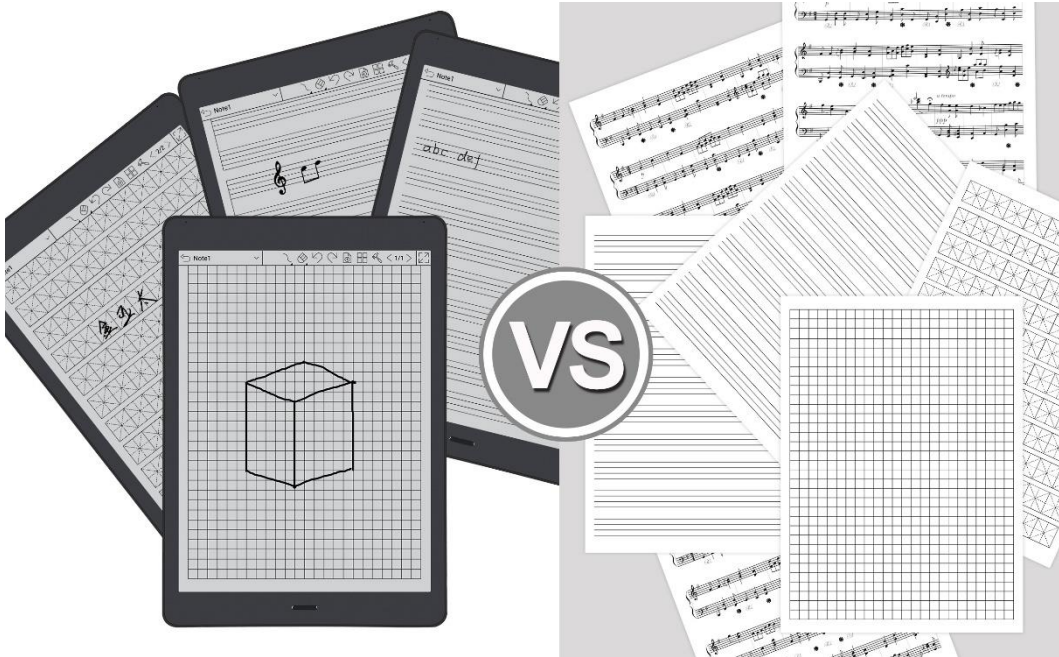

Use Wacom electromagnetic stylus, support 4096 level pressure sense, no need to charge, pen smart and smooth, can reproduce the handwriting track. The writing effect is almost the same as the paper.

No more notebooks and no more sticky notes

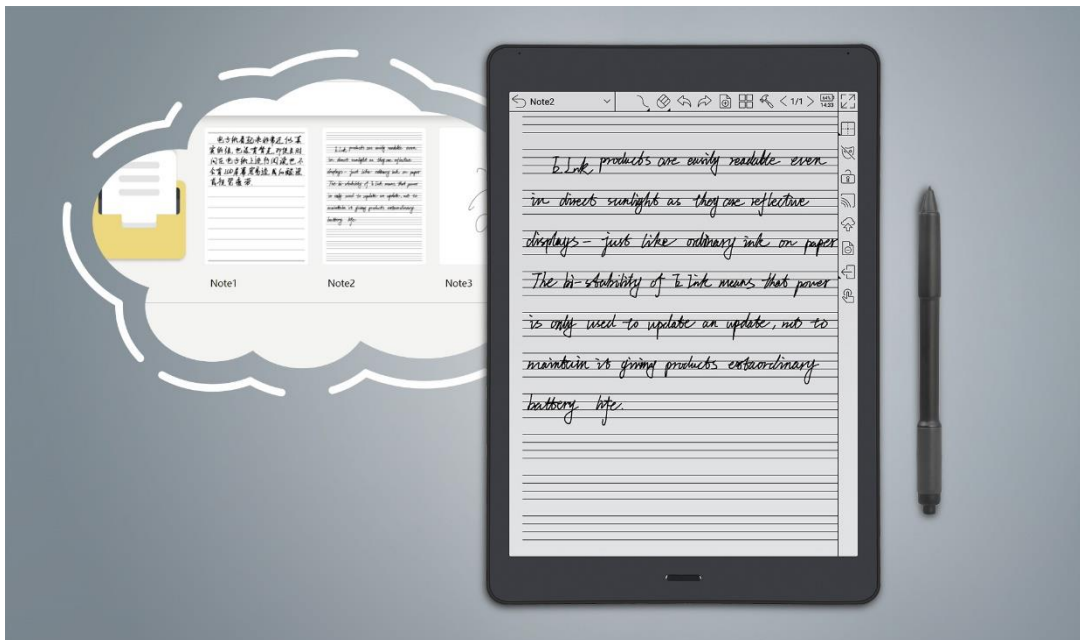

Notes can record different content (handwritten text, pictures, audio recording, etc.), timely and fast record the content you need. At the same time, it can also meet the design needs of most engineers, editors, composers and other practitioners.

Preset Backgrounds for all Occasions

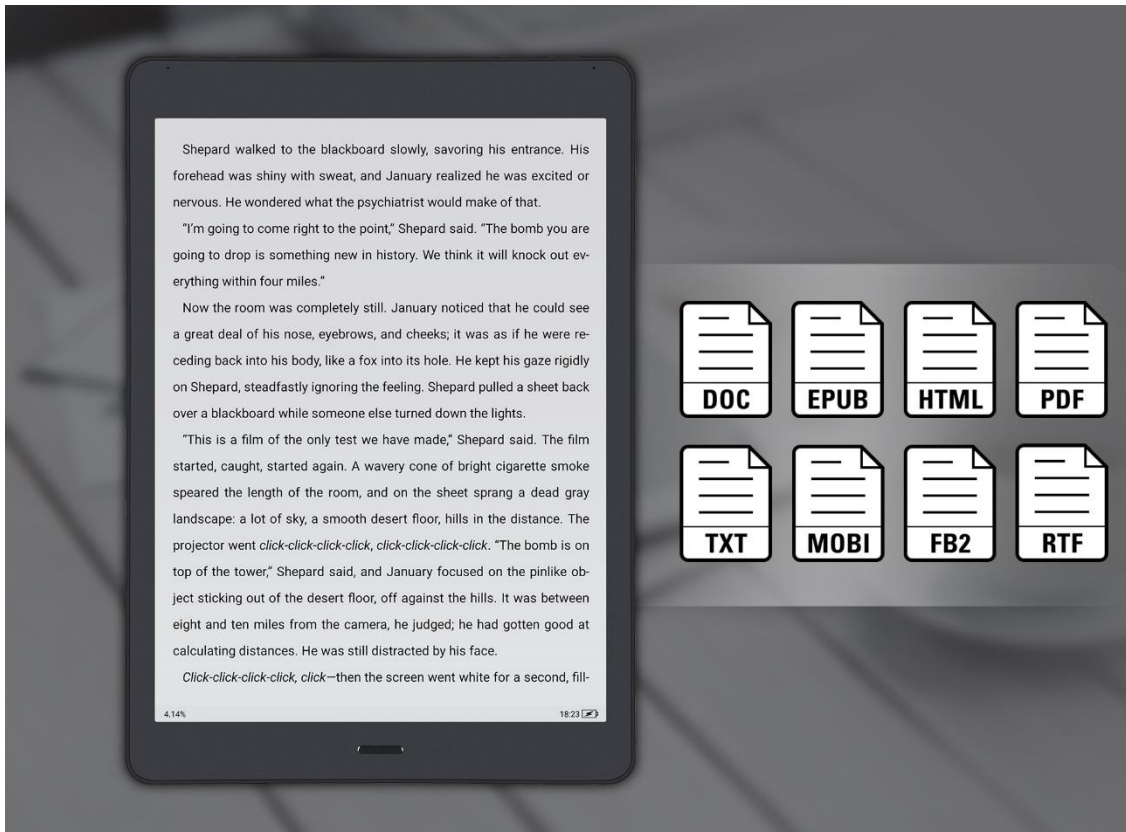

Preset backgrounds allow for taking notes on... a narrow ruled template, college ruled template, Cornell note template, graph paper template, sheet music template, and more!

Real-time cloud synchronization

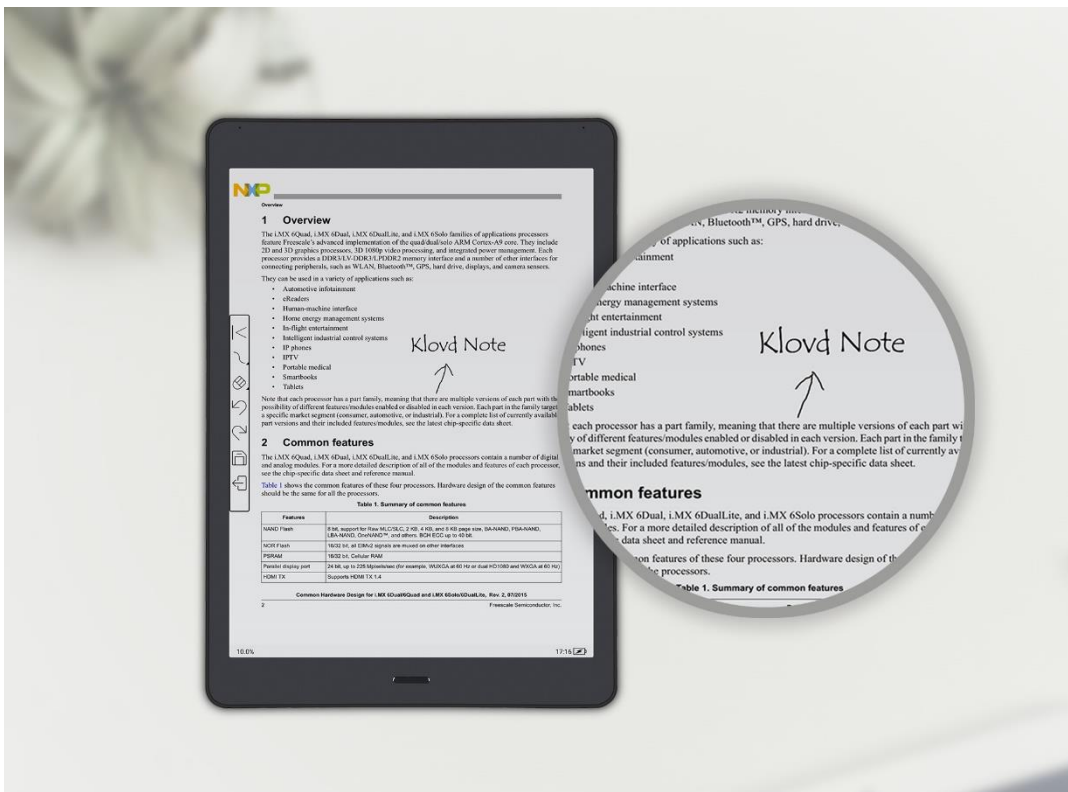

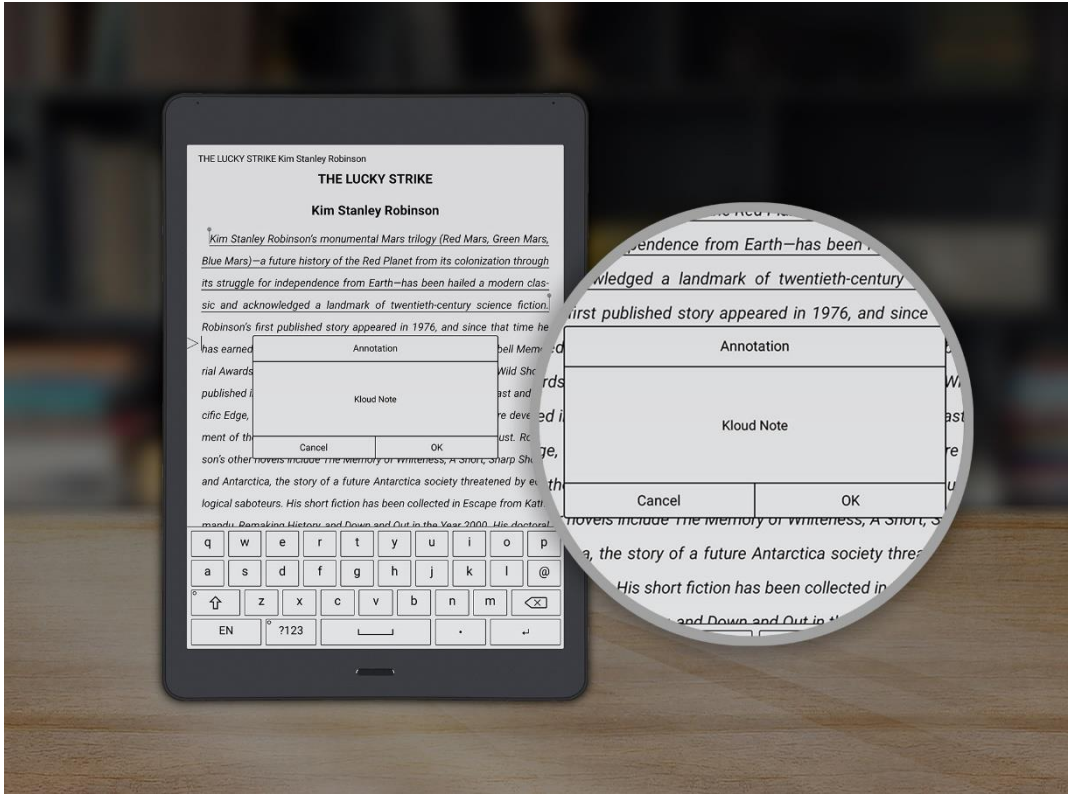

When users write notes, they will upload them to cloud user's space. Users can check the past notes anytime and anywhere, even if KloudNote is not around.

An eye-friendly reading experience

Fluent reading experience, simple and easy to use, KloudNote can support most e-book formats on the market, such as TXT/HTML/RTF/FB2/DOC/MOBI/CHM/PDF/CHM etc.

Easily make notes or tags on your e-books

When reading a book, users can also mark the sentences or paragraphs they like and add the corresponding reading notes, At the same time the books are labeled and notes will be synchronized to the cloud, next time open the book annotations and notes

Share Your Display Wirelessly

For making KloudNote a second monitor, wirelessly mirror your desktop screen on KloudNote via specific apps.

Product Specifications

Hardware

- Screen: 10.3” E-Ink flexible screen with cover-lens
- Resolution: 1872*1404
- Touch: Capacitive touch + Electromagnetic touch(4096 degree of pressure sensitivity)
- CPU: Quad-core Cortex-A35 processor
- RAM: 2G LPDDR4 memory
- ROM: 32G EMMC storage
- Connectivity: Wi-Fi(2.4GHz + 5GHz) + BT4.2 3G/4G(Optional)

Software

- OS: Android 8.1
- Documents Formats: PDF/EPUB/TXT/HTML/RTF/FB2/DOC/MOBI/CHM...
- Image Foramts: PNG/JPG/TIFF/BMP
- Audio Formats: WAV/MP3

Others

- Buttons: power, back button with fingerprint recognition
- Expansion Interface: USB-C (support OTG)
- Speaker and Microphone: Yes
- Earphone Jack: 3.5mm earphone jack
- Battery: 4000mAh lithium-ion battery
- Battery Life: 2h/day, 1 week usage
- Dimesions: 250*175*7.6mm
- Weight: ≤385g

Certification

- CE, FCC
